Order RE: Motion seeking  
Truth not False Statements.

Judge Abrams all due respect your writing court orders putting things in record that are trivial or causing issue with me for several reasons? I have no reason to lie about anything I send in motion form?

I'm going to file this motion seeking a answer to "ALL" stuff I've wrote? April 9, 2019 you file minute order stating I seek issuance of summons two? 2 groups of employees? -- Thus 20 to 24 defendants I state under penalty of perjury the false seductive malice actions done to me?

(Exhibit F) is defendants you acknowledge in my civil action? So why are you speaking in April 9, 2019 minute order Docket 33? I have served all defendants on (Exhibit F)? And reason I'm alerting the court is because I'm not a lawyer or you don't understand my filings you make my prosecuting my case difficult?

April 9, 2019 on your minute order you state people from ALR? That's not a true statement? Everybody on exhibit is defendant?

Again I never wrote a motion ask a defendant to waive answering my summons and complaint? I'm starting to see you are not being fair and going out your way to make things hard

different because you've labeled me a 3-strike litigant and that's a no-brainer? My previous legal action CDCR settled and after settled here we are again we show malicious and sadistic actions of Dept. of Corrections and defendant's counsel.

Fed Rule Civil Procedure 4. Summons says 60 days from date received? I'm asking court now and tell court CDCR has refused to respond or acknowledge any of my adverse issues?

If Magistrate Judge Paul L. Abrams is going to prohibit my filing? Then I'll take steps to get a new Magistrate if Judge Abrams don't understand my pleadings or want to respond as part of Judge job over my civil suit?

I've made the litigation coordinator D. Sanchez aware of summons and civil lawsuit? With all due respect can you Judge please respond to my pleading in simplest way?
